

5 GALLON HEATED PAIL/BUCKET BLANKET

Flexotherm™ manufactures a custom designed, high quality pail/bucket blanket suitable for a wide variety of plastic, fiber, and metal containers.

Our blankets offer an even and continuous heat source for any type of job you need done.

FEATURES

- Outfitted with a GFCI for extra security for both the product and user
- High Efficiency Carbon Heating Grid evenly distributes heat over the entire blanket area
- Heating element, unlike others, decrease current as temperature increases
- Constructed of Heavy Duty Vinyl that is *NFPA Certified Flame Retardant*
- Blankets are outfitted with adjustable retaining straps and quick release plated buckles
- Vinyl Panel Perimeters are sealed with a fully welded seam
